

*The Blue Empowerment Project*

# CALL FOR POSTERS

Integrated Multitrophic Aquaculture System Launch

*Share how your research, ideas, and innovations are contributing to women empowerment within the Blue Economy*

## About

The Blue Empowerment Project Team is launching the Integrated Multitrophic Aquaculture (IMTA) System in Kwale County in November 2023. During this period, the project will host a series of activities focusing on empowering women for the Blue Economy.

You are invited to participate in the 'Poster Session' by submitting your research as a poster presentation. Share your latest research findings, ideas, and innovations with professionals in your field and the community. Interact, gain feedback, and connect with other researchers and professionals.
